# *General Information*

This guide lists average prices paid for United States coins by dealers throughout the nation. If you have coins to sell, contact your dealer for appraisal and prompt cash settlement.

Prices on U.S. coins are determined by the state of preservation. We classify various conditions as follows:

**GOOD** — Every important part of the design plain, but shows signs of considerable wear.

**FINE** — Circulated, but shows wear only on high points. Design and details sharp.

**VERY FINE** — Sharper than above grade. Various terms such as "Extra Fine" and "About Uncirculated" are used to describe the degree of wear between Very Fine and Uncirculated.

**UNCIRCULATED** — No wear.

**PROOF**: Specially struck coins with a mirror-like surface.

**DO NOT CLEAN YOUR COINS.** Dealers will pay higher prices for your coins if left in their original state of preservation.

Coins struck at the Philadelphia mint do not carry mint marks (except 5c pieces from 1942 to 1945). The following letters signify the various mints:

"C" for Charlotte, North Carolina (on gold coins only).

"CC" for Carson City, Nevada.

"D" for Dahlonga, Georgia (1838 to 1861 gold coins only).

"D" for Denver, Colorado.

"O" for New Orleans, Louisiana.

"P" for Philadelphia, Pennsylvania.

"S" for San Francisco, California.

Usually less coins were struck at the branch mints than at Philadelphia. Therefore the mint marks are of the utmost importance to those buying and selling U.S. coins.

The location of mint marks is shown after the heading of each denomination or type.

**NEVER CLEAN YOUR COINS**

## UNITED STATES PATTERN COINS

Coins of rejected design were known as "Pattern and Experimental Pieces". These were sold to collectors and given to government officials by the Philadelphia mint. Over 1700 varieties were coined; most of which were struck in very small quantities, although some were struck in quite large numbers of as many as 1000 pieces. We purchase all types of these "Pattern" coins and will be pleased to quote prices on any of them you have for sale.

## UNITED STATES PAPER MONEY

We will pay a premium for most of the early United States paper money issues including National Bank Notes when in crisp new condition. With the exception of a few rare issues, notes that have been circulated are not desired by collectors and do not command premiums. Quotations will be furnished on crisp notes. Let us know what you have for sale in U. S. paper money.

## OBSOLETE BANK NOTES AND SCRIP

Prior to the passage of the National Banking Act most of the country's banks issued their own paper money. Railroads and other businesses issued scrip similar to the bank notes. There are thousands of varieties of these types of paper money. For most of them we pay from 1c to 5c each.
